

■ CONFIDENTIAL – DIGITAL WELLNESS ECOSYSTEM PLATFORM

Full Product & System Requirement Document (White-Label Architecture)

1. PROJECT OVERVIEW

We are building a next-generation AI-enabled Digital Wellness, Fitness & Health Ecosystem Platform.

This is not a simple fitness website. It is a:

- Wellness + Fitness + Nutrition + Lifestyle Tracking System
- Franchise-based scalable business platform
- AI-powered health intelligence ecosystem
- Multi-role enterprise management system

The system must support:

- Web Application
- Mobile Application (future-ready)
- Admin Panel
- Franchise Dashboard
- Staff Panel
- User App

2. CORE OBJECTIVE

To provide users a complete digital wellness journey, including:

- Fitness transformation
- Nutrition tracking
- Health monitoring
- Lifestyle improvement
- AI-based insights
- Progress analytics
- Community motivation

3. USER WELLNESS SYSTEM

■ ■ Workout System

- Beginner / Intermediate / Advanced programs
- Fat Loss / Muscle Gain / Fitness plans
- Home workout + Gym workout modes

- Day-wise structured workout schedule
- Exercise demonstration videos

■ Nutrition System

- Personalized meal plans
- Daily calorie tracking
- Macro tracking (Protein / Carbs / Fat)
- Healthy food recommendations
- Detox & wellness drinks section

■ Water Tracking System

- Daily water intake tracking
- Smart reminders
- Hydration goals
- Water streak challenge system

■ Lifestyle Tracking

- Sleep tracking
- Meditation & stress management
- Yoga & breathing exercises
- Habit tracking system

■ Daily Challenge System

- Daily workout tasks
- Meal tracking completion
- Water intake completion
- Step tracking integration
- Points, streaks, badges system

4. TRANSFORMATION TRACKING SYSTEM

- Weight tracking system
- Body measurements tracking
- Before / After transformation photos
- Weekly progress analytics
- Visual progress reports (graphs)

5. WORKOUT VIDEO SYSTEM

- Day-wise structured video library
- In-dashboard video streaming
- Exercise guidance system
- Category-based workout content

6. COMMUNITY & ENGAGEMENT SYSTEM

- Daily motivational quotes
- Success stories section
- Leaderboards
- Community engagement feed
- Challenge participation system

7. HEALTH ANALYTICS SYSTEM

- BMI calculation
- Body fat analysis
- Muscle mass tracking
- Health score generation
- AI-based comparison reports

■ Risk Indicator System

- Green = Normal
- Yellow = Warning
- Red = High Risk

8. USER PROFILE SYSTEM

Each user will have:

- Lifetime health profile
- Wellness journey history
- Progress timeline
- Achievement tracking
- Transformation record storage

9. HEALTH DOCUMENT SYSTEM

Users can upload:

- Blood reports
- Full body checkups
- X-Ray, ECG, Sonography
- Vitamin reports
- Sugar / BP / Thyroid reports
- Liver / Kidney reports

All stored securely in cloud.

10. BODY ANALYSIS SYSTEM

Staff/Admin can input:

- Body Fat %
- BMI
- Muscle Mass
- Visceral Fat
- Water %
- Protein %
- Metabolic Age
- Bone Mass

11. MEDICAL REPORT SYSTEM

Basic:

- Sugar
- BP
- Hemoglobin

Advanced:

- CBC
- Lipid Profile
- Vitamin D / B12
- Thyroid
- Liver Function
- Kidney Function
- Hormonal Tests

12. AI COMPARISON ENGINE

System must compare:

- Previous reports
- Current reports
- Trend analysis
- Improvement tracking

13. ANALYTICS & GRAPH SYSTEM

- Weight progress graphs
- Fat loss graphs
- Muscle gain graphs
- BP / Sugar tracking graphs
- Cholesterol trends

14. REWARD SYSTEM

- Achievement badges
- Certificates
- Digital rewards
- Transformation recognition
- Milestone achievements

15. DIGITAL IDENTITY SYSTEM

Each user gets:

- Digital membership ID
- QR code identity
- Membership status
- Wellness level tag

16. ADMIN PANEL SYSTEM

Core Features:

- User management
- Franchise management
- Staff management
- Content upload system
- Subscription control
- Payment tracking
- Notifications system
- Analytics dashboard

17. FRANCHISE SYSTEM

Franchise Features:

- Franchise onboarding
- Staff management
- Revenue tracking
- Commission system
- Daily / Monthly reports
- Performance analytics

18. BUSINESS LOGIC CONTROL MODULE

■ REQUIREMENT:

Admin must control how business/sales are assigned.

■ CONTROL TYPE (UI OPTION):

- Toggle Switch (ON/OFF)
- Dropdown Selector:
 - Assign Sales to Franchise Account

– Assign Sales to Company/Admin Account

■ **SYSTEM LOGIC:**

When a sale occurs:

- If Franchise Mode = ON → Sales go to Franchise
- If Admin Mode = ON → Sales go to Company Account

■ **SELF-FRANCHISE RULE:**

Admin can manually decide:

- Sales under Franchise account
- Sales under Company account

■ **IMPACT:**

- Revenue tracking
- Commission calculation
- Business volume (BV)
- Analytics dashboards
- Leaderboards

■ **REQUIREMENTS:**

- Editable anytime from Admin Panel
- Real-time effect
- Fully scalable architecture
- Multi-franchise ready
- Audit logs for changes

19. UI/UX REQUIREMENTS

- Premium & luxury design system
- Minimal UI (Apple-style)
- International-level interface
- Mobile responsive design
- Smooth animations
- Clean dashboard structure

20. SECURITY SYSTEM

- Encrypted health data
- Secure authentication
- Cloud backup
- Role-based access control
- Multi-device login support

21. FUTURE EXPANSION

- AI wellness assistant
- Mobile apps (iOS/Android)
- Wearable integration
- Smart recommendations engine
- Global franchise expansion system

22. BUSINESS MODEL MODULE

- Membership subscriptions
- Franchise fees
- Product sales
- Consultation services
- Online wellness programs
- AI premium services

23. FINAL SYSTEM VISION

A fully scalable:

- Digital Health Ecosystem
- AI Wellness Intelligence Platform
- Franchise Business Network
- Lifestyle Transformation System

IMPORTANT NOTE FOR DEVELOPERS

- System must be modular
- API-first architecture
- Cloud scalable (AWS/GCP preferred)
- Microservice-ready structure
- Future AI integration friendly
